SUMMARY

I define myself as dedicated web developer with a passion for creating efficient user-friendly and visual appealing websites. With a passion for learning new things everyday and seeking to Leverage technical expertise and enthusiasm for Frontend development to contribute to innovate projects and grow in collaborative team environment

EXPERIENCE

- Develop new user-friendly features using modern SPA front-end frameworks (**React.js/Next.js**).
- Validate input before submitting to backend.
- Translate **UI/UX** design wireframes to actual code.
- Implementing **Authentication** to ensure security.
- Integrating **APIs** with frontend and dealing with **JSON** data

PROJECTS

These are some of my projects I've completed to improve my hands on skill

- Library Management System(CRUD)
- Ecommerce
- Reciper Finder
- MyPortfolio
- Authentication by Auth0
- Blog Website
